

# MAY 27<sup>th</sup> - 29<sup>th</sup> 2026

## CONVENTION CENTER COATZACOALCOS, VERACRUZ

### 6<sup>th</sup> edition

In collaboration with

Organized by

Coatzacoalcos

## PRESENTATION

Once again, DownStream Oil & Gas Control is presented in Coatzacoalcos, Veracruz as the only forum specialized in process control, instrumentation, automation, instrumented safety, measurement, cyber security and other digital transformation processes in the oil industry.

We will have the assistance of users of the refining and petrochemical plants, as well as specialized exploration and production technicians from the different companies that provide services to the oil industry.

The goal is to present a forum open to the latest digital technologies for efficient, reliable, and sustainable management of operations.
